

**Amendment to the Specification:**

Please amend the paragraph beginning on page 3, line 26 as follows:

Cup holder 28 is pivotably coupled to base 12. As shown in FIG. 4, a first post 50 extends from first interior wall 32 into cavity 30 and a second post 52 extends from second interior wall 34 into cavity 30 and toward the first post. First and second posts 50, 52 cooperate to define a cup holder pivot axis 54. First connector portion 46 of shell 38 includes a first post opening 56 sized to receive first post 50 therein. Second connector portion 48 of shell 38 includes a second post opening 58 sized to receive second post 52 therein. Post 50 and its respective opening 56 constitutes a first hinge portion. Post 52 and its respective opening 58 constitutes a second hinge portion.
